

7/20/94

Mr. Cleon H. Foster  
Rural Route 1 Box 179  
Saxe, VA 23967

OSHA Docket  
Docket No. H-122  
Room N-2625  
200 Constitution Avenue, NW  
Washington, DC 20210

To whom it may concern:

I think it would be extremely unfair to implement a smoking regulation so restrictive that people would not be able to smoke in their own homes as well as in public places.

When I recently was hospitalized, I could not smoke in the public hallway of the hospital but I could smoke in my own room. If this regulation is implemented, I would not be able to smoke in my own hospital room where I was recovering from an illness. This would be a burden on my life.

It is unfair to people's privileges, rights, personal choices, and liberties to implement such a regulation.

Sincerely,

*Cleon H. Foster*
